

HDR45

Direct Fired Air Heaters

**WACKER
NEUSON**
all it takes!

Infrared heater - maximum heat output in any position.

Where ever targeted heating is required the HDR45 provides radiant heat directly from the heater surface, and thus drying and providing heat without the need to heat the surrounding air. Even under windy conditions the right temperatures are attained quickly and reliably.

- Targeted infrared radiant heat, without heating the ambient atmosphere
- The best in its class with 45 kW
- 15 hours of running time with one full diesel tank
- Active cooling system keeps the housing much cooler than with comparable models
- Optional thermostat remote control for a constant optimal construction site temperature

HDR45 Technical specifications

Dimensions

L x W x H	1410 x 711 x 1054 mm
L x W x H (shipping)	1027 x 705 x 1036 mm
Operating weight (with fuel)	127 kg
Operating weight (assembled - without fuel)	73 kg
Shipping weight (no fuel)	91 kg

Operating data

Heating power	42.7 kW
Heat efficiency	100 %
Space heating volume	5,800 m ³
Fuel type	Diesel
Fuel consumption	4.34 l/h
Tank capacity	65 l
Runtime	15 h
Voltage	230 V

Please note: that product availability can vary from country to country. It is possible that information / products may not be available in your country. More detailed information on engine power can be found in the operator's manual; the stated power may vary due to specific operating conditions. Subject to alterations and errors excepted. Applicable also to illustrations.
